## Town Plan of T'osjo-in

### Town Plan:

1. The town of T'osjo was completely destroyed during the Korean War, but the following establishment had been constructed in that town since then:

1:25,000; 6733-I SW)

CONFIDENTIAL

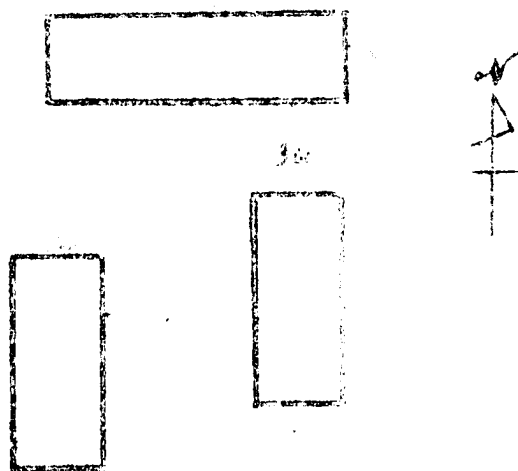

CONFIDENTIAL

Guide to Above Town Plan:

2. 1) T'oejo-gun Ceramics Factory: This factory, which was known as a Class III enterprise, employed approximately 300 persons (both males and females). The factory produced an unknown amount of light red roofing tiles and red bricks (20cm x 10cm x 5cm). Part of the tiles and bricks produced by this factory were used for construction purposes in T'oejo-gun, and the rest were transported by train to unknown places. This was the largest factory in T'oejo-gun. 50X1-HUM  
 Comment: This  
  
 factory operated 24 hours a day.)
- 2) Residences of the T'oejo-gun Ceramics Factory: There were approximately 20 two-family type houses in this area. 50X1-HUM
- 3) T'oejo-gun Conveniences Cooperative: This was a one-story wooden structure, approximately 20 meters long, four meters wide, and three meters high, with a tile roof and lime-coated walls. This cooperative employed approximately 50 persons, and the majority of them were carpenters and a few of them were barbers. The tables and chairs produced by this cooperative were used by the schools and governmental organizations within T'oejo-gun. 50X1-HUM  
 the haircut charge was 25 Won at this cooperative.
- 4) T'oejo Railroad Station: This was a one-story building, approximately 12 meters long, five meters wide, and four meters high, with a red-tile roof. The walls of the building had windows enframed in the upper half. The station had approximately seven or eight employees. No express trains stopped at this station.
- 5) T'oejo-gun Farmers' Bank: This one-story structure was approximately ten meters long, five meters wide, and four meters high, and had a red tile roof. The upper half of the cement-coated walls had windows. This bank, employing approximately ten persons, was the only bank in T'oejo-gun and had dealings with various organizations in that county.
- 6) T'oejo-gun Internal Affairs Sub-Station: This was a one-story red-brick building, approximately seven meters long, four meters wide, and three meters high, with a red-tile roof. The chief of this internal affairs sub-station was a senior lieutenant of the Ministry of Internal Affairs, and he headed approximately four other internal affairs personnel. This station was subject to the supervision and control of the T'oejo-gun Internal Affairs Station.

CONFIDENTIAL

- 7) T'oejo-gun Party Committee: This one-story structure was approximately ten meters long, six meters wide, and 3.5 meters high, and had red-brick walls and a gray cement tile roof.
- 8) T'oejo-gun People's Committee: The T'oejo-gun People's Committee consisted of three buildings, the dimensions of which are given in the following sketch:

These three buildings were all approximately three meters high and had red-brick walls and a cement tile roof. The Democratic Youth League Committee, Women's League Committee, and Trade League of T'oejo-gun all had their offices in these three buildings.

- 9) T'oejo-gun Communications Department (Post Office): This was a one-story structure, approximately ten meters long, six meters wide, and 3.5 meters high, with red brick walls and a gray tile roof. There were windows on the upper half of the walls. This communications department had approximately 20 employees, one telephone exchange, and one wireless radio.
- 10) T'oejo-gun Consumers' Cooperative Store: This store, employing five persons, was a one-story structure measuring approximately seven meters long, five meters wide, and three meters high, with brick walls and a red tile roof. The residents of T'oejo-gun all bought their daily commodities from this store, which was the only store in that town.
- 11) Residences of T'oejo-gun Ceramics Factory: There were approximately 30 residences of the T'oejo-gun Ceramics Factory in this area. These were all two-family type houses, each measuring approximately ten meters long, three meters wide, and three meters high with red-brick walls and a red-tile roof.

CONFIDENTIAL

CONFIDENTIAL

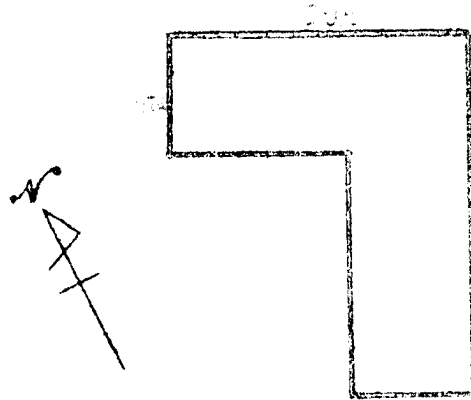

- 12) Residences of T'oejo-gun Fishing Station: In this area, there were approximately 40 two-family type residences of the T'oejo Fishing Station. These houses, constructed by the Construction Team under the Supply Department of the T'oejo Fishing Station, each measured approximately ten meters long, three meters wide, and three meters high, and had red brick walls and a red tile roof. This particular area of T'oejo-yip was broken down administratively into nine Pans (30th Pan-38th Pan).
- 13) T'oejo Senior Middle School: This school consisted of two buildings, each measuring approximately 35 meters long, six meters wide, and four meters high, with red brick walls and a red tile roof. Approximately 350 students, both males and females, from primary school grades up to high school grades were taught at this school. This school was large enough to accommodate all the school-age boys and girls of T'oejo-yip. 50X1-HUM
- 14) T'oejo Fishing Cooperative: This was a one-story structure, measuring approximately ten meters long, four meters wide, and three meters high, with a straw roof and mud-walls. This cooperative was composed of approximately 70 persons, about half of them being engaged in fish-catching and the other half in fish processing works. This cooperative owned one small motor boat and four wooden boats. The general public of T'oejo-yip bought fish from this cooperative. 50X1-HUM
- 15) [REDACTED]
- 16) T'oejo-gun Barber Shop: This was a one-story red-brick building, approximately seven meters long, 3.5 meters wide, and three meters high, with a red tile roof. The front side of the barber shop had glass windows. Two male barbers and one female barber were employed at this shop. The haircut charge for an adult was 25 Won at this shop.
- 17) T'oejo Motion Picture Hall: This one-story red-brick building was approximately 35 meters long, eight meters wide, and five meters high, and had a red tile roof. This motion picture hall could accommodate approximately 200 persons. The entrance charge was 20 Won equally for adults and minors. Four persons were employed at this motion picture hall.
- 18) T'oejo-yip Restaurant: This national restaurant, selling noodles (50 Won) and regular meals (50 - 100 Won), was a one-story red-brick structure, approximately seven meters long, four meters wide, and three meters high. This restaurant had approximately five employees.
- 19) T'oejo Hotel (National): This one-story building measured approximately ten meters long, six meters wide, and three meters high, and had a cement tile roof. The walls of the hotel were coated with cement (lower half) and lime (upper half).
